Character Development Program

"Picked up through Training: Carried through Life."

Character Trait #1:

"Works Hard and Plays Later"

A Kage No Michi Ninja does the important things first and does them well. How have you been able to demonstrate this outside of the dojo? Here are examples of showing this trait in a practical situation.

1. Help your mom with cleaning before going to the movies.
2. Studying for a test before hanging out with friends.
3. Does their chores before going outside to play.
4. Finishing your homework before playing video games.
